| Representative students of Young Accounting Association, West University of Timisoara, Romania | | |

Erasmus+

Strategic project no. 2014-1-RO01_KA203-002961

During the first part of the day the students prepared Power Point presentations as a result of the lessons learned and the debated solutions at Şantierul Naval Orşova SA and BBraun Pharmaceuticals SA - pilot entities. The students presented their results in front of the classroom. All the case studies and the students' presentations were uploaded on the Yammer E-network (ERASMUS+CAREER PROJECT). On this E-Network there are active also the managers of the pilot entities so there is the prerequisite for implementing the solution at their level. The teachers synthesized issues related to the lessons to be acquired by students. Young Accounting Association representatives performed a mentoring program, sharing their experience in projects. There is a strong need of involvement of future generations as a recommendation of good practices. Also there is a need of the provision of jobs available to be facilitated the access of young graduates on the labor market. The students filled in the feedback questionnaires. They were awarded with certificates of participation and attendance certificates.

CONNECTION BETWEEN ACCOUNTING RESEARCH, EDUCATION AND THE EMPLOYER'S NEEDS WITHIN THE EUROPEAN FRAMEWORK
